

# melissa & jesse

**M**elissa & Jesse met in school. Spend any time with these two and you can see the love they feel for each other and the joy they feel for life! They're fun, adventurous and love to laugh. They also love to travel – anywhere that includes a beach or a spa and spent several weeks in Italy on their honeymoon. In their spare time they enjoy hiking, shopping and eating out. They're cool and eclectic!

Their colour palette needed to be wild and fun and the overall feel needed to be eclectic but still elegant to properly reflect Melissa & Jesse's personalities. The Wedding Planner decided to do colour blocking – 1/3 of the tables were teal, 1/3 in fuchsia and 1/3 in deep purple. They were tone on tone, with flowers, napkins and sashes on the chiavari chairs all in the same hue. All the guests thought it looked just like them! The invitations were fun & crazy and matched all of the wedding day printing.
